ABOUT ME

I am a web developer

helping to solve problems effectively and precisely, constantly learning in new technologies for the development of user-friendly interfaces and competitive in today's market. I consider that communication between the companions is an important pillar for the quality of a product.

Experience

Frontend Developer

Bimbo S.A de C.V

Sistema Interno de Control de Accidentes

Mi aporte fue el diseño de interfaces de usuario en figma y maquetación de estos mismos en ReactJS.
